

PIPE CUTTING MACHINE

tubOcut I

For cutting and bevelling of steel pipes with outer diameters
from 70 mm (2,75") to 120 mm (4,7")

Features of the tubOcut I

- Outstanding guidance and cutting precision
- Easy mounting and operation
- Robust and solid in construction
- Excellent cutting quality

Thus, the machine is also perfectly suited for the use on construction sites

GLOOR

- Fast and easy mounting
- Precise centering and locking onto the pipe by means of a special clamping device
- Very high guidance and cutting precision through the three-point support of the guide and drive wheels
- Possibility of bevel cutting up to 45° with the aid of an angle scale at the torch holder

Scope of supply:

- set of block nozzles 3 - 50 mm for acetylene or propane
- nozzle cleaners
- spanners

Technical data:

Article number	: Art. 7310
Minimum pipe diameter	: 70 mm (2,75")
Maximum pipe diameter	: 120 mm (4,7")
Weight	: 8.7 kg
Cutting range	: 3 - 50 mm
Fuel gas	: acetylene or propane – please specify in your order
