

PIPE CUTTING MACHINES

tubOcut I - IV

with electric drive

tubOcut I	Art.7311
tubOcut II	Art.7321
tubOcut III	Art.7331
tubOcut IV	Art.7341

As option, all models of the pipe cutting machines **tubOcut** are available with electric drive and remote control instead of manual drive.

The advantages at a glance :

- infinitely adjustable cutting speed from 0 - 700 mm/min. by means of a potentiometer which is located on the remote control
- selection of the cutting direction „left hand“ or „right hand“ by the remote control
- constant cutting speed and thus excellent cutting quality
- easy mounting and operation
- outstanding guidance and cutting precision
